There's no stopping **Angie**. She earned her notorious reputation as a serial seductress long ago, and she's living up to it — again! As her relationship with Brad crumbles, Angelina has seduced him to sleep away while she shoots her new movie *The Tourist* in Italy. Why? Because she's already sunk her claws into yet another costar — **Johnny Depp**! The chemistry was red hot during intimate meetings in L.A., and now they'll pick up where they left off in romantic Venice. Where's the long mate of **Vanessa Paradis**, Johnny's long mate of 11 years? Is Brad crazy with Johnny?
