Not only does USANA adhere to the **GOOD MANUFACTURING PRACTICES (GMP)**

for dietary supplements set forth by NSF International, we also voluntarily comply with GMP for pharmaceuticals, meaning we manufacture our supplements to the same safety and purity standards as those used for prescription products. Taking the commitment to quality a step further, USANA became a registered FDA Drug Establishment in 2011.

A number of USANA supplements have been evaluated and approved by ConsumerLab.com, a leading provider of independent test results and information.

BEST OF STATE

USANA has won numerous Utah Best of State awards for Best Dietary Supplements, Best Health and Nutrition Products, Best Personal-Care Products, and Best Health and Nutrition Beverage.

Each product carries a **POTENCY GUARANTEE**

promising that what is on
the label is actually in the product.

USANA is a member of the **United Natural Products Alliance (UNPA)** — an association of dietary supplement and functional food companies that share a commitment to provide consumers with natural health products of superior quality, benefit, and reliability.

Products meet trusted USP standards and specifications, which means they will break down in the body and do not contain undeclared ingredients or harmful contaminants.
