DRINKREV3.COM

CLEANER. SMARTER. STRONGER. REV³ ENERGY™ is all the power of an energy drink—refined. With an advanced formula developed by USANA's nutrition experts, REV³ ENERGY is a superior alternative to crash-and-burn energy drinks.

REV³ ENERGY: WHAT MAKES IT WORK

L-Carnitine, an ingredient that offers two important functions in energy production

- Shuttles fatty acids (fats) into the mitochondria where they can be turned into energy
- Helps to transport toxic by-products of energy combustion out of the mitochondria to prevent accumulation

Low-glycemic formula for sustained energy

- The total glycemic load from REV³ is 3 to 4 times lower than traditional energy drinks
- Typical energy drinks spike your blood sugar levels (and do give you a feeling of quick energy). But they also lead to an energy crash soon after that leaves you feeling drained
- REV³ does not lead to a sugar crash

REV³ ENERGY: WHAT MAKES IT BETTER

CLEANER — crisp, all-natural taste

- No artificial flavors
- No artificial sweeteners
- No artificial preservatives
- No artificial colors

SMARTER — smart source of nutrients

- Contains natural caffeine from a blend of teas. Teas provide numerous beneficial ingredients including potent antioxidants and thermogenic agents
- Uses low-glycemic sugars for sustained energy
- Provides vitamins, minerals, and antioxidants to support energy metabolism at the cellular level

STRONGER — powerful, energy-producing ingredients

- More than just sugar and caffeine
- Complete and proprietary Energy Complex with L-Carnitine, tea, ginseng, rhodiola, cacao, citrate, malate, and coenzyme Q-10
