

USANA's Uncompromising Dedication to Quality

USANA Health Sciences was founded with a mission to manufacture the highest quality, science-based products to help you maintain your health.* USANA's standards of excellence mean you are getting products that are safe and effective—Nutritionals You Can Trust.

Exceptional Manufacturing for Your Safety

- USANA's state-of-the-art facility registered by NSF International to be in compliance with Good Manufacturing Practices (GMP) for dietary supplements.
- All nutritional supplements are treated with the same care that goes into the manufacturing of pharmaceutical products.

About NSF

International

NSF International is an independent, not-for-profit organization that helps protect public health by writing standards for food, water, air, and consumer goods; testing and certifying products based on those standards; inspecting for Good Manufacturing Practices (GMP); and providing ongoing monitoring.

You deserve the best. Discover the USANA Difference for yourself. For more information about USANA Health Sciences, talk to your Independent USANA Associate.

Proven Potency and Purity for Your Confidence

- Each product carries a potency guarantee promising that what is stated on the label is actually contained in the product.
- Products meet trusted USP specifications, which means they will break down in the body and do not contain undeclared ingredients or harmful contaminants.
- The ESSENTIALS™ (MEGA ANTIOXIDANT and CHELATED MINERAL), PROFLAVANOL® 90, and the HEALTHPAK 100™ AM/PM packs have been certified by NSF to contain all ingredients declared on product label at the listed amounts.
