\$91,800 is the average yearly income for an established, full-time USANA Associate (Gold Director and above). \$23,225 is the annual average of those who earned as little as one commission check each month. Surveys show that 83% of all Associates self-report they joined USANA to "improve their health." Of those remaining, 21% earned a check at least once a month even though 56% reported they were not joining to "replace their full-time income." Of those that were, 41% have been Associates for at least one year and 56% are considered full time with the title of Gold Director or above. These figures shown should not be considered as guarantees or projections of your actual earnings or profits. Success with USANA results only from successful sales efforts, which require hard work, diligence, and leadership. If you include all 126,146 with the title of Associate, which includes Associates not actively building a business (acting as wholesale buyers), Associates who just joined (as little as one day), and those who are just beginning to build their customer base, the average yearly income is still \$734.27, with more than one in three earning a check.
