

The **Visionex™** supplement provides a comprehensive array of powerful antioxidants that protect the eyes against environmental factors to maintain healthy vision.

### Who to Share With

- People whose eyes are frequently exposed to the sun, computer screens, etc.
- People whose visual health is a priority

### Why USANA's Visionex

- Visionex combines the powerful antioxidant benefits of lutein, zeaxanthin, and bilberry extract to protect the retina against free-radical damage.
- It is effective, safe, and manufactured to pharmaceutical quality. It is also approved by ConsumerLab.

### How to Use

Take one (1) tablet a day, preferably with a meal.

56 Tablets/Bottle

Item# 134

### What You See

We see when light strikes the retina, a highly sensitive layer of cells at the back of the eye. The central part of the retina is the macula, which is especially vulnerable to oxidative damage due to the radiation that is frequently focused on it.
